

This Course is
**“ABSOLUTE
GOLD”**

Vanessa Truitt
(30 years in the
dental industry)

COMPREHENSIVE ORTHO COURSE

**Orthodontics/Orthopaedics/TMJ/Airway
Lectures & Hands-On Workshops**

Due to growing demand by the dental community, IAAD proudly presents an integrated orthodontics/orthopaedics/TMJ/airway course. Learn the ABCs. No prerequisite or knowledge required as the instructors will be going through an integrated approach.

Session I Why Orthodontics in your general practice?

Introduction to contemporary Orthodontic treatment objectives / Assessing facial growth / Airway evaluation / Evaluation of the TMJ / Arch development techniques / Screening Protocols – Records / Introduction to cephalometrics / facial (soft tissue) analysis / How to obtain Fellowship for the IAO

Session II Functional Orthopaedics/Orthodontics

Early treatment philosophy / Early Treatment – The Golden Opportunity / Interceptive orthodontics / Myo-functional therapy / Model and cephalometric analysis / Treatment for air-way obstruction, tongue thrust & Jaw function / Appliances for arch development: design, fabrication, insertion, adjustments / Fixed & Removable Appliances / Removable functional appliances / Definition & causes of snoring and obstructive sleep apnoea

Session III Straight Wire

Anchorage / Straight Wire Bracketing Appliances / Direct and Indirect Bracket Placement / Self-ligating: Case selection & Arch wire sequencing / Indirect bonding hands on, controlled arch hands on

Session IV Cosmetic Clear Sequential Aligners, Lingual Technique, Social Six

Functional influences that contribute to the formation of a Class II Malocclusion / Mid face deficiency versus mandibular prognathism / Orthopaedic objectives for a Class III patient/Straightwire biomechanics for the Class III patient /Biomechanics in the clear sequential aligners technique / Interproximal reduction of enamel (IPS and ARS) / Debonding of ceramic brackets

Session V TMD, Sleep Dentistry, Surgical Orthodontics

Muscle palpation and occlusal analysis / Differential diagnosis of head and neck pain / Myo-facial pain / Radiography of the temporomandibular joint with emphasis on computer tomography./ Adjunctive therapies – acupuncture, magnetic therapy, prolo, trigger point injections etc / “Active” retention philosophies in growing patients / Types of oral implants / Microimplant treatment procedures

Session VI Mechanics, Case Finishing, Bracket Removal & Retention

Treating patients with a deep dental overbite and over closed facial proportions / Treating patients with a deep dental overbite and increased facial proportions / Treating patients with an open bite and over closed facial proportions / Biomechanical basis of extractions and space closure / Molar uprighting techniques / A bioefficient skeletal anchorage system / Banding & bracketing Errors/ Fixed bonded & Removable Retainers / Debanding Protocol / Practice Management.

“Dr Ken Lee and Dr Cary Fraser have put together a brilliant course. It has not only increased my knowledge of orthopaedics/orthodontics, but also the TMJ and Airway. It makes me a much better general dentist.”

Dr Marianne Pinto, Perth, Western Australia

International Association for Orthodontics Benefits of Membership

The International Association for Orthodontics (IAO) was founded in 1961 to ensure quality orthodontic care by general and pediatric dentists. In order to reach this goal, the IAO offers a wide array of orthodontic continuing education courses through the IAO Annual Meeting and through its IAO certified instructors.

Today the IAO has approximately 4,200 member dentists worldwide and is the oldest non-specialty orthodontic association in existence. The association headquarters office is based in Milwaukee, Wisconsin U.S.A.

Some of the many benefits of IAO membership include:

- Over 125 IAO Certified Instructors worldwide
- Subscription to the association's quarterly clinical journal, the International Journal of Orthodontics
- Subscription to the association's newsletter, Straight Talk
- Inclusion in the Annual IAO Worldwide Membership Directory and Referral Guide
- Access to the IAO website "Members Only" section (www.iaortho.org), which includes all past issues of the International Journal of Orthodontics
- Discount on registration for the IAO Annual Meeting, which includes numerous instructors over four days of courses, generally held in the month of April
- Voluntary participation in the IAO course-recording program, which keeps records of orthodontic CE credits if submitted. The IAO course-recording program can be used in obtaining IAO tier advancement and notification to licensing agencies that have mandatory CE requirements.
- IAO Tier Advancement membership categories have been designed to encourage members to participate in continuing education programs. Certificates are given to IAO members when obtaining each new tier.
- Approximately 50 IAO study clubs, which offer the convenience of orthodontic study in areas closer to home
- An IAO Legal Defense Fund, which supports the right for ALL dentists to provide quality orthodontics to their patients. This IAO program also works towards the goal that every dentist be equitably reimbursed by third party payers for orthodontic services provided. All funds in this account are from voluntary contributions.
- A network of IAO expert reviewers who are available to IAO members who are facing peer reviews by state or provincial dental society review committees.
- Past IAO Annual Meeting videos for rent

CE Hours apply to IAO Tier Advancement

Dr. Kenneth Lee

- B.D.S (Syd Uni)
- Graduate Diploma of Health Science from University of Western Sydney
- Vice President of IAO
- Fellow and Certified Senior Instructor for the IAO
- Fellow and Diplomate of the ICOI
- Fellow of WAUPS
- Fellow of the American Association of Functional Orthodontics
- Member of the Australasian Association of Orofacial Orthopaedics

Dr. Anthony Sved

- Specialist Periodontist
- B.D.S. (Syd Uni)
- M.D.Sc. (QLD)
- M.Sc (Lond)
- F.D.S.R.C.S. (Eng)
- F.F.D.R.C.S. (Irel)
- F.D.S.R.C.S. (Ed)
- F.R.A.C.D.S.

Dr. Cary Fraser

- B.D.S (Syd Uni)
- Fellow of Australian College of Nutritional and Environmental Medicine
- Diplomate of the IAO
- Master Senior Instructor of the IAO
- Member of Craniofacial Pain Association
- President of the Australasian Association of Orofacial Orthopaedics
- Past President of the IAO
- Fellow of the ICOI

Dr. Jonathan Low

- B.D.S. (Syd Uni.)
