

The Australian Orofacial Myology Lecture Series

creating form and function

Introductory Myofunctional Therapy Course - October 2014

The Australian Orofacial Myology Lecture Series will be presenting a four-day Introductory Orofacial Myofunctional Therapy course in Sydney this October.

This program has been developed specifically for Australian Dental and Speech Pathology professionals, and is taught by Australian Orofacial Myologists.

Orofacial Myology is an exciting and rapidly-growing field of health in Australia.

Do not miss out on this opportunity to further your knowledge and practice of treatment of Orofacial Myofunctional Disorders.

This four day Orofacial Myofunctional Therapy introductory course is available to Registered Dental Hygienists, Dentists, Speech Therapists/Pathologists and Medical Professionals to incorporate Orofacial Myofunctional Therapy into their daily practice. Participants will learn to recognize and treat the symptoms of Orofacial Myofunctional Disorders (OMD) and to re-pattern muscle function.

Upon completion of the introductory course, participants will be equipped with the knowledge and skills to implement successful treatment of OMD on the return to their practice.

Continuing and ongoing professional support is provided after completion of each program to enable participants to practice confidently, and provide optimum health care to Australian patients with Orofacial Myofunctional Disorders.

CPD: This course contributes 28 points to your Continuing Professional Development.

Cost: Course cost is \$2,400 per participant.

24-27th October, Parkroyal Hotel, Darling Harbour
