

# Photobiomodulation and orofacial pain management

## Dental Session

Melbourne Sunday 1 July 2018

A one hour lecture will be followed by a three hour practical workshop including:

- ✓ Determining appropriate dosage
- ✓ Reduction of pain and swelling after extractions and surgery
- ✓ Treatment of dry socket
- ✓ Treatment of soft tissue lesions-cold sores, aphthous ulcers and mucositis
- ✓ Analgesia in teeth allowing a number of procedures to be completed without using local anaesthetic
- ✓ Treatment of root hypersensitivity
- ✓ Helping nausea and gagging
- ✓ Improving implant outcomes
- ✓ Endodontic applications
- ✓ Periodontal and Hygiene applications
- ✓ Nerve Regeneration

**DR GERRY ROSS – a  
general practitioner  
using PBM for 25+  
years, from Canada will  
discuss the use of  
Photobiomodulation in  
the management of  
orofacial pain as part  
of the main conference  
program.**
